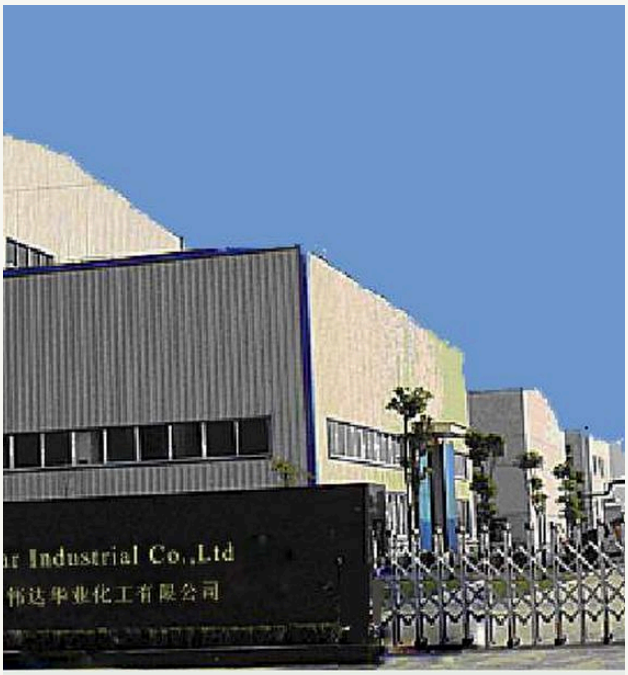
CROP PROTECTION / GLOBAL SUPPLY

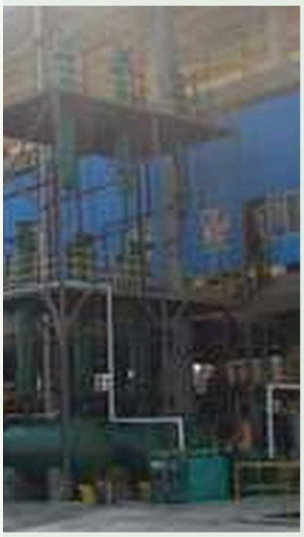
AVERSTAR PRODUCT CATALOGUE

2026

Formulations, packaging and export support for professional agrochemical buyers.

AVERSTAR1.COM





ABOUT AVERSTAR

A clear route from product brief to export plan.

Averstar Industrial Co., Ltd coordinates agrochemical formulations, private-label packaging and export documentation for importers and distributors.

Since 2007, the work has centred on practical decisions: product identity, formulation, packaging, document scope and destination-market requirements are confirmed before order execution.

SIX PRODUCT GROUPS

A portfolio organised for faster product conversations.

01 **Herbicides** 5
15 product configurations

02 **Insecticides** 11
18 product configurations

03 **Fungicides** 18
13 product configurations

04 **Plant Growth Regulators** 24
4 product configurations

05 **Seed Treatments** 27
1 product configurations

06 **Public Health Pest Control** 29
3 product configurations

Use this catalogue to shortlist the active ingredient, strength and formulation. Send the product name together with the destination market, pack sizes and required documents for review.

FROM BRIEF TO SHIPMENT

One coordinated commercial workflow.

01 Define

Active ingredient, concentration, formulation and destination.

02 Configure

Packaging, label-file and private-label requirements.

03 Document

Specification, quality and shipping-document scope.

04 Deliver

MOQ, lead time, Incoterm and loading plan.

Commercial portfolio reference only. Availability, claims and use directions must be confirmed for the destination market.

WEED MANAGEMENT

Herbicides

Selective and non-selective formulations for professional crop, plantation and vegetation-management portfolios.

BUILT AROUND THE MARKET BRIEF

Practical options, confirmed before order.

Liquid packaging

Sachets and pouches

Bulk packaging

Private-label accessories

- Private-label artwork
- MOQ and lead-time review
- COA, SDS and TDS scope
- Export-document coordination

DOCUMENTED DECISIONS

Confirm the specification before the order.

A useful catalogue makes the first conversation clearer while leaving regulatory and technical confirmation to the correct project stage.

+ Active ingredient, concentration and formulation

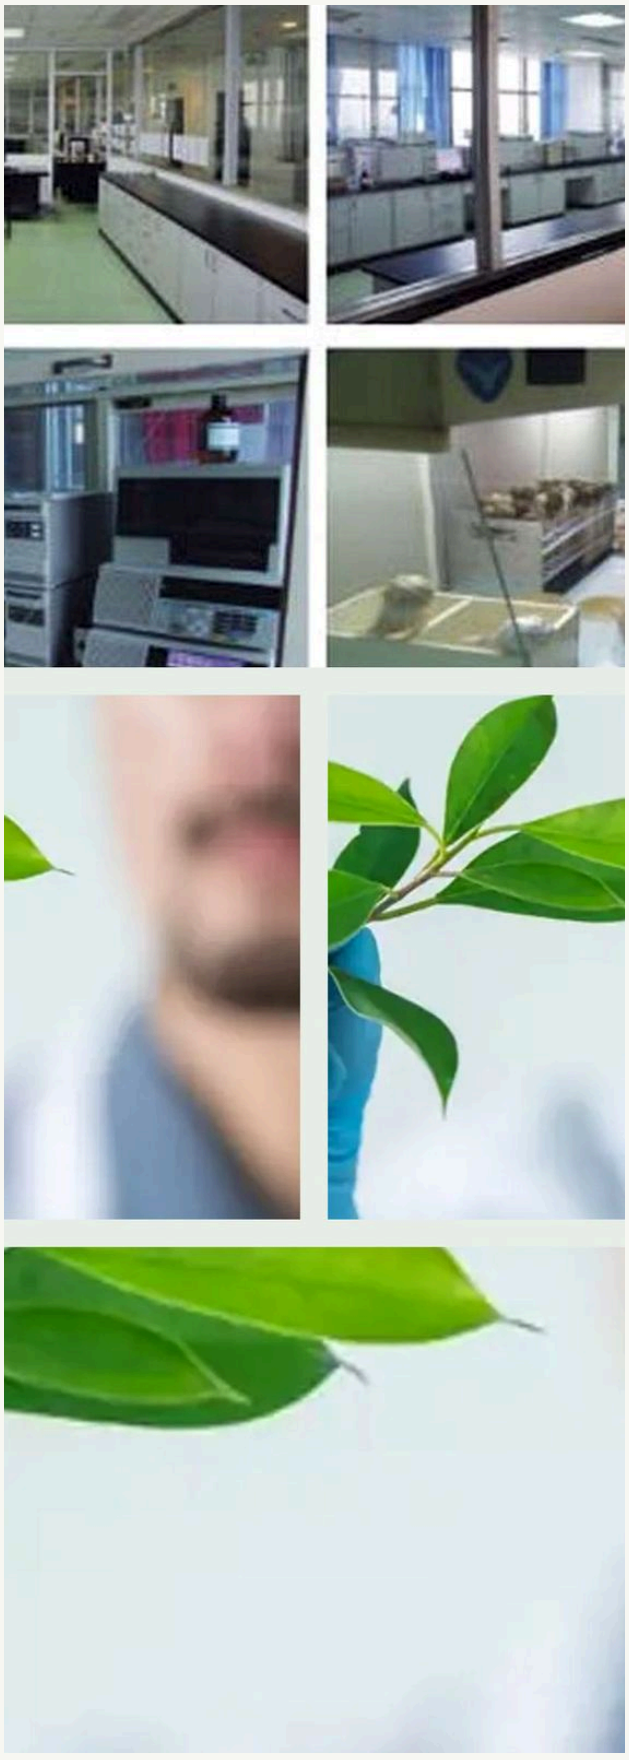
+ Destination registration and approved label

+ Specification and batch-document scope

+ Packaging compatibility and artwork

+ Shipping requirements and lead time

No dosage, crop claim or target claim in this catalogue replaces the registered product label.



START A PRODUCT ENQUIRY

Tell us what your market needs.

Share the active ingredient, concentration, formulation, destination country, preferred packaging and required documents. Our team will review the brief before preparing a quotation.
